PROFESSIONAL SUMMARY

Frontend Developer pursuing an Integrated M.Sc. in IT (Silver Oak University, expected 2026) with hands-on expertise in React.js, Next.js 14, TypeScript, and building AI-powered SaaS products. Experience spans academic AI research, freelance client delivery, and a flagship personal SaaS product — with production sites shipped for real clients. Skilled in structuring prompt-engineering pipelines with OpenAI, Gemini, and Anthropic Claude APIs, and in component-driven UI architecture with SSR/SSG.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js 14, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Framer Motion, GSAP, Lenis
- **Backend:** Node.js, Express.js, Next.js API Routes, REST APIs, tRPC, JWT Authentication
- **Databases:** PostgreSQL, MongoDB, Firebase Firestore, Prisma ORM
- **AI / LLMs:** OpenAI API, Google Gemini API, Anthropic Claude API, Prompt Engineering, AI Workflow Automation
- **Architecture:** SSR/SSG, Redux, Zustand, Code Splitting, React Suspense, Component Libraries
- **DevOps:** Git, GitHub, Vercel, Netlify, Docker (basics), VS Code

EXPERIENCE

Frontend Developer & Prompt Engineer — Freelance / Self-Directed 2022 – Present

- Architected scalable SaaS dashboards with React.js, Next.js, and TypeScript using SSR/SSG — improved initial load time ~40%.
- Built reusable component libraries that cut new feature development cycles by 30% across multiple projects.
- Designed structured prompt-engineering pipelines with OpenAI and Gemini APIs to power AI-driven product features.
- Optimized rendering with React.memo and lazy loading — boosted UI responsiveness by ~35%.
- Ensured WCAG 2.1 accessibility compliance and mobile-first responsive design across all shipped UIs.

PROJECTS (CHRONOLOGICAL)

Portfolio Website — Personal 2024 – Present

- Designed and built a personal portfolio site with an amber/gold accent identity, referencing award-winning sites for motion and layout patterns — live at [divyesh-portfolio.netlify.app](#).
- Built a companion animated GitHub profile README with custom SVGs and a GitHub Actions snake workflow.

Ojas Hospital — Multispeciality Hospital Website — Client Project (Delivered) 2025

- Delivered a production Next.js/TypeScript/Tailwind site for a multispeciality hospital in Rakhial, Ahmedabad, live at [ojashospitalmultispecility.com](#).
- Implemented GSAP, Framer Motion, and Lenis for scroll and interaction design across hero, footer, testimonials, and department sections.
- Ran a 12-phase SEO and production-readiness plan, multi-page architectural restructuring, and i18n/localization fixes.

Dairyworld Expo — B2B Trade Exhibition Website — Client Project for Spark Media, Rajkot 2025

- Built a full multi-page production site (Next.js 14, React 18, TypeScript, Tailwind, Framer Motion) on the client's real brand system.
- Developed an interactive Gujarat/Saurashtra dotted map and a Reserve Stall form with a live price calculator and automated email delivery via Resend.
- Delivered an Awwwards-inspired scroll redesign using Lenis, parallax, and a draggable gallery.

VELVET.AI — AI Website Builder — Flagship Personal SaaS 2024 – Present

- Building an AI-powered SaaS that generates production-ready websites from natural language prompts using the Anthropic Claude API.
- Implemented a prompt-chaining pipeline producing semantic HTML/CSS/JS with 90%+ structural accuracy.
- Architected a drag-and-drop component editor with Next.js SSR real-time preview, reducing perceived latency ~45% via React Suspense + SSE.
- Stack: Next.js 14, TypeScript, Tailwind, GSAP, Framer Motion, Lenis, tRPC, Inngest, E2B sandboxes, Clerk, Prisma.

EDUCATION

Integrated M.Sc. in Information Technology — Silver Oak University, Ahmedabad 2022 – May 2026 (Expected)

ADDITIONAL

Languages: English (Professional), Hindi (Native), Gujarati (Native)

Interests: AI-powered SaaS, LLM integrations, open-source
